The Honorable Kevin McCarthy  
 U.S. House of Representatives  
 2468 Rayburn House Office Building  
 Washington, DC 20515

Dear Majority Leader McConnell, Minority Leader Schumer, Speaker Pelosi, and Minority Leader McCarthy:

The 28 undersigned organizations, representing millions of patients and consumers across the country who face serious, acute, and chronic health conditions once again call on Congress to immediately enact legislation to permanently end all forms of surprise medical billing.

For more than a year, Congress has had major bipartisan bills in hand that would comprehensively shield patients and consumers from surprise medical bills, however Congress has yet to move critical legislation forward.

Patients with serious and chronic conditions routinely require medical treatment to maintain their health. However, during the pandemic, patients are being asked to shift their care to different providers

and facilities to minimize exposure or to ensure patients with COVID have the ability to seek and receive treatment away from those who may be at risk of infection. These shifts, while necessary to contain the virus, may result in out-of-network care – increasing consumers’ risk of receiving a surprise medical bill. Fear of exorbitant costs and surprise medical bills should not keep patients and consumers away from care for treatment of COVID-19 or any other underlying medical condition.

Now more than ever, amid recent media reports that patients are receiving surprise medical bills stemming from COVID treatment<sup>1</sup>, it is urgent that Congress act now to enact bipartisan, bicameral legislation to protect patients from surprise medical bills. Our patients are frustrated that they continue to be exposed to this predatory practice at a time when they are extremely concerned about their physical and financial wellbeing.

As we have called for previously this year ([April 8](#), [April 14](#), [May 21](#), [July 30](#)), we once again urge you and your congressional colleagues to move quickly to include comprehensive protections for patients and consumers in any end of the year legislative package.

If you have any questions or would like to discuss this critical issue with our organizations further, please contact Josh Roll of the American Heart Association at [Joshua.Roll@heart.org](mailto:Joshua.Roll@heart.org).

Sincerely,
